A guide to our cake smash photo session

This is a great experience for your little one to enjoy.

The session lasts up to 1 hour and includes a mixture of poses and natural shots.

This session focuses on the birthday child although we can get siblings, parents & family shots on the mini session prior to the cake smash.

We start the session with a mini portrait session where we get a few natural shots and a few using props and any family ones needed.

We then get your little one ready for their cake smash, we have tutu's braces, ties, bow ties etc.

With boy's jeans or shorts work best and little girl's tutus or frilly knickers work best. There is several cake smash outfits which can be bought online which just personalise this session to your child.

Due to allergy's you must supply your own cake we do have a cake stand you can use or you can bring your own.

We start with a bowl of flour, chef hat and utensils to get some fun shots.

We then do the cake smash we advise parents to also prepare for getting messy as often the little one like to grab you.

We then finish with a fun splash session in our tin bath not only does this clean the cake off it also makes some very cute photos. We have towels but you can bring your own if you prefer.

All we want to do is capture this moment in time in a special image for you.

We ask you to arrive 10 minutes early to give you a chance to get everyone used to the studio and photographer.

We have refreshments available to keep you hydrated throughout your session and a toilet.
